

# Crossroads

## Partial Hospitalization Program

# Peace Hospital

Crossroads offers intensive behavioral health treatment to school-age youth (ages 5-18) that have psychiatric and substance use difficulties that require more intensive treatment than weekly therapy or intensive outpatient.

### All paths include:

- Personalized treatment plan designed by a multidisciplinary team of experts including therapists, nurses and psychiatrists
- Individual sessions with licensed therapists
- Mandated family therapy sessions
- Group therapy sessions including art, activity and music
- School-based academic services through Jefferson County Public Schools (Peace Academy)
- Point-Based Behavioral Incentive System

2020 Newburg Road  
Louisville, KY 40205
